International Journal of Technology and Human Interaction

EDITOR-IN-CHIEF:

Bernd Carsten Stahl

De Montfort University, United Kingdom

- Welcomes research that transcends disciplinary boundaries and investigates the interaction of technology and humans from a variety of viewpoints
- Consists of research that is accessible and allows the exchange of ideas outside of special interest groups in the discipline
- Reflects on ethical issues related to computing and information systems
- Acts as an outlet for novel and interesting research outside of the typical mold of IS research
- An official publication of the Information Resources Management Association

Coverage Includes:

- Experiential learning through the use of technology in organizations
- Shaping of e-commerce through law and culture
- HCI design for trust development
- Influence of gender on the adoption and use of technology
- Phenomenology of e-government
- Value of intellectual capital in knowledge management
- Relationship of theory and practice with regards to technology
- Technological risks and their human basis
- Perceptions and conceptualizations of technology
- Intersection of humanities and sciences and its impact on technology use
- Social impact of specific technologies (e.g., biometrics, SCM, PGP)
- Normative questions of the development and use of technology
- Philosophy of technology
- Responsibility of artificial agents
- Technology assessment of software/hardware development
- Interaction and conversion between technologies and their impact on society
- Social shaping of technology and human interaction research
- Anthropological consequences of technology use

Associate Editors

- Antony Bryant, Leeds Metropolitan University, UK
- Rob Harris, Brenau University, USA
- Heinz Klein, State University of NY, USA
- Jack Marchewka, Northern Illinois University, USA
- Nina McGarry, George Washington University, USA
- Anabela Sarmento, Inst. Politécnico do Porto, Portugal
- Isabel Ramos, Universidade do Minho, Portugal

Editorial Review Board Members

- Ian Alexander, Scenario Plus/City University, UK
- David Avison, Essec, France
- Andrew Basden, University of Salford, UK
- Russell Beale, University of Birmingham, UK
- Ian Beeson, University of the West of England, UK
- Dick Boland, Case Western Reserve University, USA
- Terrel Bynum, Southern Connecticut State University, USA
- Melissa Cole, Brunel University, UK
- Daniel Cunliffe, University of Glamorgan, UK
- Mats Edenius, Stockholm School of Economics, Sweden
- Ibrahim El-Beltagi, Wolverhampton University, UK
- L. Miguel Encarnação, Brown University, USA
- Charles Ess, Drury University, USA
- Luciano Floridi, Oxford University, UK
- Susan Gasson, Drexel University, USA
- Susan George, University of South Australia, Australia
- Claude Ghaoui, Liverpool John Moores University, UK
- Don Gotterbarn, East Tennessee State University, USA
- Anita Greenhill, University of Manchester, UK
- Sunil Hazari, State University of West Georgia, USA
- Kate Hone, Brunel University, UK
- Wijnand Ijsselstein, Eindhoven Univ. of Tech., Netherlands
- Fernando Ilharco, Catholic Univ. of Portugal, Portugal
- Carolyn Jacobson, Marymount University, USA
- Beekuyzen Jenine, Griffith University, Australia
- Epaminondas Kapetanios, Plirosoft GmbH, Switzerland
- Seamas Kelly, University College Dublin, Ireland
- Lynette Kvasny, Penn State University, USA
- Deborah Lafky, Claremont Graduate University, USA
- Yossi Lichtenstein, IBM Haifa, Israel
- Sharman Lichtenstein, Deakin University, Australia
- Jayantha Liyanage, Stavanger University College, Norway
- Anita Mangan, University College Dublin, Ireland
- Fiona Fui-Hoon Nah, University of Nebraska-Lincoln, USA
- Claudia Roda, American University of Paris, France
- António Lucas Soares, Univ. of Porto, Portugal
- Sarah Spiekermann, Humboldt Uni Berlin, Germany
- Eileen Trauth, Penn State University, USA
- Uwe von Lukas, University of Rostock, Germany
- Michael Waltemathe, Ruhr-Universität Bochum, Germany
- Melanie Wilson, Manchester School of Management, UK
- Panayiotis Zaphiris, City University, UK

Book Review Editor

- Steve Love, Brunel, UK

"This journal fills a gap in the scholarly/scientific publications as it builds a bridge between different perspectives of the same problems, which will help to arise new ways of dealing with the challenges that will face us in this new century."

— Anabela Sarmento, Instituto Politécnico do Porto, Portugal

The **International Journal of Technology and Human Interaction (IJTHI)** provides a platform for leading research that addresses issues of human and technology interaction. The research **IJTHI** publishes is interdisciplinary and includes aspects from a wide variety of disciplines. These disciplines range from more technical ones such as computer science, engineering, or information systems to non-technical descriptions of technology and human interaction from the point of view of sociology or philosophy. **IJTHI** provides a publication outlet for research questions and approaches that are novel and may find it difficult to be published in established journals following a rigid and exclusive structure. It is open to all research paradigms, be they empirical or conceptual, but requires that they be accessible and reflected.

Submissions

Interested contributors can submit directly to the Editor-in-Chief, bstahl@dmu.edu.uk or to an Associate Editor (AE). When submitting to the EIC, the author should suggest two AEs (possibly including EIC) whose area of expertise is close to the content of the paper. For determining who the appropriate AEs are, please check the "Editorial Team" page at www.IJTHI.net.

Authors are encouraged to nominate one reviewer for their paper, either from the International Editorial Review Board, or an external expert in their field of interest. The journal reserves the right to accept or reject this nomination. For more information, please consult the journal Web site at <http://www.idea-group.com/ijthi>.

EDITOR-IN-CHIEF

Bernd Carsten Stahl
De Montfort University, United Kingdom

BIOGRAPHY

Bernd Carsten Stahl is currently a senior lecturer in the faculty of computer sciences and engineering and a research associate at the Centre for computing and social responsibility of De Montfort University, Leicester, UK. His area of research consists of philosophical, more specifically of normative questions arising from the use of information and communication technology. He researches the application of such normative questions in economic organizations, but also educational and governmental institutions. His second area of interest consists of epistemological questions in information systems research. He is a member of the editorial review board of the Journal of Information Systems Education and the Journal of International Technology and Information Management. Furthermore, he continues to serve on conference committees, such as the Information Resource Management Association Conference and the European Conference on E-Government.
